

UAE GCAA CAR M – 1 Day - Recurrent

Introduction

This one-day recurrent course is designed to provide participants with an update on the latest changes to the UAE GCAA CAR M regulations and their implications for airworthiness management and maintenance in the aviation industry. The course is designed for individuals who have previously completed a GCAA CAR M compliance course and need to stay current with the latest regulatory changes.

Participants will learn about the latest amendments and updates to the GCAA CAR M regulations and how they impact the aviation industry. The course will cover the requirements for airworthiness management, maintenance planning and control, continuing airworthiness management, and the airworthiness review process under the latest version of the regulation.

By the end of the course, participants will have an updated understanding of the regulation and its requirements, as well as the practical tools to apply this knowledge to their work in the aviation industry. They will also receive a certificate of completion, demonstrating their continued compliance with the latest UAE GCAA CAR M regulations.

Who is the course for?

The "UAE GCAA CAR M – 1 Day - Recurrent" course is designed for aviation professionals who have previously completed a GCAA CAR M compliance course and need to stay current with the latest regulatory changes in the UAE.

Participants who have completed a previous GCAA CAR M compliance course and are due for a recurrent training will benefit from this course as it will provide an update on the latest changes to the regulations and how they impact airworthiness management and maintenance practices in the aviation industry.
