

Aviation Quality Assurance Best Practice Overview and Recurrent – 1 Day

Introduction

SAS offers this 1 day course for Aviation Quality Assurance Professionals who are looking to update and refresh. This course may be included in the Quality Assurance Competency Management Program within your organisation.

We should understand the pivotal role which is performed by the compliance monitoring team within our organisation. To ensure the organisation remains fully compliant.

A sure sign of an effective QMS will always include Competent Auditors and Quality Managers, who are able to deliver an appropriate level of oversight as well as being good communicators. Competent Aviation Auditors are able to demonstrate an understanding of the methodologies associated with continuous improvement, in addition to identify and initiate rectifications of any identified exposures in a timely manner.

EASA has created a continuous challenge with a complex set of regulations which continue to evolve. Within the organisation it is essential for the Quality Management System (QMS) maintains a full understanding of all requirements and organisation obligations.

Sofema Aviation Services with more than 40 years of commercial aviation experience behind us provides an ideal solution to ensure you team delivers at the highest level of competence.

This training is suitable for both Operational and Maintenance Auditors.

Who is the course for?

It is for persons who are involved in delivering or receiving EASA compliant Quality Assurance (Compliance Audits) In particular Quality Audit Staff, Nominated Persons, CAMO Quality Auditors, as well as anyone with an interest to achieve an effective understanding of the Compliance Audit Process.
