

EASA Aviation Compliance Management Auditing and Root Cause – Recurrent – 1 Day

Introduction

Being able to support an in-depth understanding of non-conformities in your organisation is part of the mission. Being able to clearly explain the exposure to your organisations business area owners and post holders is an essential attribute of an effective Quality Assurance Auditor.

This course is offered as a recurrent 1 day course for Quality Professionals - The training is extremely effective and is suitable for both regulatory authorities as well as industry.

Have you ever wondered how it is that accident investigators understand all the shortfalls and exposures – but after an accident or incident? It is possible to audit at this level before an accident.

This course is highly interactive with all delegates having the opportunity to fully engage to consider best practice techniques related to both auditing techniques and compliance oversight methodology.

Auditing can be a powerful tool for establishing the effectiveness of an organisation.

This training is suitable as a recurrent training for Quality & Compliance Managers as well as Compliance Auditors.

Who is the course for?

The Sofema Aviation Services training course "EASA Aviation Compliance Management Auditing and Root Cause – Recurrent – 1 Day" is designed for individuals and organizations in the aviation industry who are involved in compliance management, auditing, and root cause analysis. It is particularly beneficial for compliance managers, auditors, quality managers, and personnel responsible for ensuring regulatory compliance within their organizations. By attending this course, participants will refresh their knowledge and skills in aviation compliance management auditing and root cause analysis, ensuring continued effectiveness in maintaining compliance, identifying non-conformities, and implementing effective corrective actions to address root causes.
