

EASA Aviation Compliance Management and Auditing – Essentials – 1 Day

Introduction

Compliance Management Auditing raises an understanding of the various roles of a quality system within the organisation in particular to focus on effective identification of the need to perform root cause analysis of the discrepancies and to take positive action.

The training will place clear priority on the technique of integrated auditing including process and the identification of systemic failures as opposed to mere compliance type audit findings.

The training is designed to stimulate involvement and provides powerful motivation, to re-enforce a comprehensive understanding of the requirements and integration of the Quality.

Management System QMS and the Safety Management System SMS including an understanding of the different types of audit applicable for each area and how they might be used in an effective compliance auditing environment.

An essential element then of benefiting from this training is to focus on the issues, how they relate in our work place, and what we need to do to address them, how to identify areas which need special attention and how to focus our efforts on making sure our training delivers in all relevant areas.

Who is the course for?

It is for persons who are involved in delivering or receiving EASA / GCAA compliant Quality Assurance (Compliance Audits) In particular Quality Audit Staff, Nominated Persons, CAMO Quality Auditors, as well as anyone with an interest to achieve an effective understanding of the Compliance Audit Process.
