

EASA Part 145 / GCAA CAR 145 – 2 Days

Introduction

EASA Part 145/GCAA CAR 145 is one of the most mature regulations with its European origins going back some 20 plus years to the introduction of the harmonized FAA / JAA regulation. Our Training courses are focused on the practical delivery of a specific understanding of the regulation which allows the organization to ensure compliance to the regulation whilst at the same time developing optimized organisational processes.

The Aims of the course are to give delegates a detailed overview of EASA Part 145/GCAA CAR 145 regulation. The training includes many practical examples of Part 145/CAR 145 Implementation and how to avoid potential problems.

The training will also promote the delegates understanding concerning both airworthiness and maintenance principles, including a thorough understanding of the Role of Part 145/CAR 145 in all jurisdictions managed by an EASA/GCAA Regulatory environment as applicable.

In particular the delegate will consider the role of Contract and Subcontract organisations, as well as a deep understanding of the interfaces and responsibilities of the Part 145/CAR 145 Organisation to the Part M/CAR M Organisation.

Understanding regulations driving the 145 process enables you to make the best business decisions and to ensure compliance.

Who is the course for?

The SAS course is designed for individuals and organizations in the aviation industry needing a comprehensive understanding of the similarities and differences between the EASA Part 145 and GCAA CAR 145 regulations, particularly beneficial for quality managers, auditors, and personnel in Part 145 maintenance organizations operating under both frameworks, providing the knowledge and skills to ensure compliance with the specific requirements of EASA and GCAA CAR 145.

Detailed Content / Topics - The following Subjects will be addressed

Section A TECHNICAL REQUIREMENTS

- 145.A.10 Scope
- 145.A.15 Application
- 145.A.20 Terms of approval
- 145.A.25 Facility requirements
- 145.A.30 Personnel requirements
- 145.A.35 Certifying staff and category B1 and B2 support staff
- 145.A.40 Equipment, tools and material
- 145.A.42 Acceptance of components
- 145.A.45 Maintenance data
- 145.A.47 Production planning
- 145.A.50 Certification of maintenance
- 145.A.55 Maintenance records
- - 145.A.60 Occurrence reporting
- - 145.A.95 Findings
- - 145.A.65 Safety and quality policy, maintenance procedures and quality system
- - 145.A.70 Maintenance organisation exposition
- - 145.A.75 Privileges of the organisation
- - 145.A.80 Limitations on the organisation
- - 145.A.85 Changes to the organisation
- - 145.A.90 Continued validity
- - 145.A.95 Findings

Target groups

Operators and Maintenance Organisations, Regulatory Staff from National Aviation Authorities and MRO (Maintenance, Repair and Overhaul) approval holders.

Pre-requisites

A background in an aviation environment.

Learning Objectives

By the end of this course, delegates will be able to:

- Secure knowledge of the key components of EASA Part 145/GCAA CAR 145
- Provide examples as to the 'know how' as well as the 'know what' by looking at a practical perspective of Part 145/CAR 145
- Implement Part 145/CAR 145 within an Organisation
- Understand the Interface between Part 145/CAR 145, Part 66/CAR 66, Part 147/CAR 147 and EU OPS
- Provide a regulatory and industry perspective for staff involved in Part 145/CAR 145 maintenance

What do People Say about Sofema Aviation Services Training?

- "The instructor used the right words to explain the material."*
- "The discussions among the group were very beneficial."*
- "The instructor showed very resourceful background and experience."*
- "All sections of the course were related to my field."*
- "Adequate answers were given to specific questions."*

Duration

2 days - each day will commence at 09.00 and finish at 17.00, with appropriate refreshment breaks.
