

FAA FAR 145 – 2 Days

Introduction

FAA 14 CFR Part 145 (FAR-145) is one of the most mature aviation regulations which underwent a major rewrite released in 2004 which was the most comprehensive change in nearly 20 years. Since that time there have been further amendments to promote harmonisation with its European counterpart EASA Part 145.

Our Training courses are focused on the practical delivery of a specific understanding of the regulation which allows the organization to ensure compliance with the regulation whilst at the same time developing optimized organizational processes.

The aim of the course is to give delegates a detailed overview of FAR-145 regulation. The training includes many practical examples of FAR-145 Implementation and how to avoid potential problems.

The training will also promote the delegates understanding concerning both airworthiness and maintenance principles, including a thorough understanding of the Role of FAR-145 in all jurisdictions managed by an FAA Regulatory environment as applicable.

Understanding the regulations driving the 145 processes enables you to make the best business decisions and ensure compliance.

Who is the course for?

The course is made for individuals who work in or are seeking to enter the aviation maintenance industry. It provides training on the Federal Aviation Regulations (FAR) related to repair stations, covering topics such as maintenance procedures, documentation, and safety standards.

What is the Benefit of this Training – What will I learn?

The participants will learn about the specific requirements and regulations that govern repair stations in the aviation industry, including maintenance practices, documentation, and quality control. The course will cover topics such as certification, inspections, record-keeping, and compliance with the Federal Aviation Regulations (FAR) to ensure safe and efficient aircraft maintenance operations.

Detailed Content / Topics - The following Subjects will be addressed

- Definitions and Abbreviations
- History of the FAA
- Introduction and Structure
- FAA Guidance Material
- FAA Rulemaking
- Airworthiness

Subpart A – General

- §145.1 Applicability
- §145.3 Definition of terms
- §145.5 Certificate and operations specifications requirements
- §145.12 Repair station records: Falsification, reproduction, alteration, or omission

Subpart B – Certification

- §145.51 Application for certificate
- §145.53 Issue of certificate
- §145.55 Duration and renewal of a certificate
- §145.57 Amendment to or transfer of certificate
- §145.59 Ratings
- §145.61 Limited ratings

Subpart C – Housing, Facilities, Equipment, Materials, and Data

- §145.101 General
- §145.103 Housing and Facilities requirements
- §145.105 Change of location, housing, or facilities
- §145.107 Satellite repair stations
- §145.109 Equipment, materials, and data requirements

Subpart D – Personnel

- §145.151 Personnel requirements
- §145.153 Supervisory personnel requirements
- §145.155 Inspection personnel requirements
- §145.157 Personnel authorized to approve an article for return to service
- §145.159 Recommendation of a person for certification as a repairman
- §145.160 Employment of former FAA employees
- §145.163 Training requirements
- §145.161 Records of management, supervisory, and inspection personnel
- §145.165 Hazardous materials training

Detailed Content / Topics - The following Subjects will be addressed

Subpart E – Operating Rules

- §145.201 Privileges and limitations of certificate
- §145.203 Work performed at another location
- §145.205 Maintenance, preventive maintenance, and alterations performed for certificate holders under parts 121, 125, and 135, and for foreign air carriers or foreign persons operating a U.S.-registered aircraft in a common carriage under part 129
- §145.206 Notification of hazardous materials authorizations
- §145.207 Repair station manual
- §145.209 Repair station manual contents
- §145.211 Quality control system
- §145.213 Inspection of maintenance, preventive maintenance, or alterations
- §145.215 Capability list
- §145.217 Contract maintenance
- §145.219 Recordkeeping
- §145.221 Service difficulty reports
- §145.223 FAA inspections
- Review
- Test

Target Groups

Operators and Maintenance Organisations, Regulatory Staff from National Aviation Authorities, and MRO (Maintenance, Repair and Overhaul) approval holders.

Pre-requisites

A background in an aviation environment.

Learning Objectives

By the end of this course, delegates will be able to:

- Secure knowledge of the key components of FAA FAR 145
- Provide examples as to the 'know-how' as well as the 'know what' by looking at a practical perspective of FAA FAR 145
- Implement FAA FAR 145 within an Organisation
- Understand the Interface between FAA FAR Part 145 and Part 43.
- Provide a regulatory and industry perspective for staff involved in FAA FAR 145 maintenance
