

## Fire Safety Training – ½ Day

### Introduction

Understanding simple rules can help us to do the right thing when we are faced with a Fire Emergency.

Ensuring Fire safety means understanding the set of practices that are intended to reduce the exposure to the risk of Fire under any circumstances.

Fire safety measures include all activities and behaviours which are intended to prevent the possibility of an uncontrolled fire.

Threats to fire safety are commonly referred to as fire hazards.

A fire hazard may include a situation that increases the likelihood of a fire or may impede escape in the event a fire occurs.

### Who is the course for?

Essentially it is for every employee who is working in the facility either as staff or contractor New Starters should complete this training before working alone.

All Employees should repeat this training as a recurrent at least every 24 months (12 months is better)
