

GCAA CAR 145 – EASA Part 145 A.M. & Maintenance Post Holder Training – 2 Days

Introduction

An industry-specific two-day program specifically designed for Accountable Managers and Maintenance System Post Holder of a CAR 145 / Part 145 Organization.

The Maintenance Post Holder is directly responsible for Quality Control together with the effectiveness of the Safety Management System. This course also considers in detail the Role and Responsibilities of Continuing Airworthiness managers. Typical responsibilities include ensuring the company's compliance with the approved maintenance program GCAA / EASA regulations and adherence to company-required procedures.

Additionally, the Post holder Maintenance is responsible for a wide range of safety-critical processes. This in-depth course provides detailed practical training in management obligations and methodologies to ensure an effective and efficient maintenance organization.

The course is highly participative and promotes industry best practices as standard, it is developed by an industry professional with over 40 years of Commercial Aviation experience.

Aviation Authorities may choose to interview Form 4 candidates. All relevant areas are covered during the course.

Who is the course for?

The SAS course is designed for individuals and organizations operating within the aviation industry who need to fulfill the post holder training requirements specified in GCAA CAR 145 and EASA Part 145 regulations. This course is particularly beneficial for Accountable Managers and Maintenance Post Holders in Part 145 maintenance organizations seeking to enhance their understanding of the regulatory responsibilities and obligations in both GCAA and EASA frameworks. By attending this course, participants will gain the knowledge and skills necessary to effectively fulfill their roles as Accountable Managers and Maintenance Post Holders, ensuring compliance and safety in their respective organizations.
