

# Overseas Territory Aviation Requirements (OTAR) Part 145 & Part 43 Essentials – 1 Day

## Introduction

The Overseas Territories Aviation Requirements (OTARs) describe the means by which aircraft operators, aviation personnel, and providers of services can gain approvals, licenses, and certificates and the process through which these are maintained. This process ensures adequate levels of safety and internationally agreed standards are met.

Overseas Territories Aviation Circulars (OTACs) are issued to provide advice, guidance, and information on standards, practices, and procedures to support the Overseas Territories Aviation Requirements (OTARs). They may amplify or provide practical guidance on meeting a requirement. They may also contain administrative material, information of a temporary nature, or information published in advance of a formal amendment to OTARs.

## Who is the course for?

This course is aimed at quality managers, maintenance and continued airworthiness post holders, NAA staff, as well as EASA CAMOs, MRO and Part 145 maintenance organizations wishing to gain OTAR 145 approval.

## What is the Benefit of this Training – What will I learn?

- a) Awareness of the structure, composition, and impact of the OTAR regulatory obligations
- b) Understand the environment driving the Part 145 process to focus your business decision-making process.
- c) Confidence in gaining a detailed knowledge of the key components of OTAR 145 MOE
- d) Have the knowledge to be able to manage an OTAR MOE within your organization.
- e) Achieve a detailed understanding of the OTAR Part 145 Quality and Safety System.
- f) Be able to use the regulation to support full compliance within an Aircraft Maintenance Organization (AMO)
