

Progressive Management of Airport SMS – 3 Days

Introduction

This intensive 3 Day course is specifically designed to focus on the needs of the Safety and Quality Department to ensure delivery to exacting standards. The course is highly participative and assumes prior knowledge of SMS requirements and objectives.

The airport is a busy and dynamic environment with many stakeholders required to integrate into a unified SMS process. An effective SMS is about identifying exposure to risk as felt by the entire business. With the introduction of EASA Commission Regulation (EU) No 139/2014, EASA is creating a performance-based regulatory environment for Aerodrome Operators and Operations.

The primary focus of the training is to support the delegate's need to deliver effective management of safety including the process to measure risk and exposure and the development of mitigation strategies.

Who is the course for?

Airport Managers, Nominated Persons, Regulatory Authority Personnel, Quality & Safety Practitioners, and other stakeholders.

What is the Benefit of this Training – What will I learn?

- a) Detailed understanding of the Regulatory Drivers to ensure compliance
- b) Achieve a practical understanding of the best practice management techniques and safety mechanisms to ensure compliance
- c) Understand techniques to ensure performance monitoring and measurement.
- d) Understand practical planning considerations
- e) Understand how to develop and manage active procedures
