

Republic Of Indonesia DGCA Compliant Advanced Quality Auditing Techniques – 2 Days

Introduction

Being able to support an in-depth understanding of non-conformities in your Organization is part of the mission. Being able to clearly explain the exposure to your Organization’s business area owners is an essential attribute of an effective Quality Assurance Auditor.

Our Advanced Quality Auditing Techniques Training may be applied in any audit situation including management system processes, determining the effectiveness of existing or client Quality and Safety audit systems.

The training is extremely effective and is suitable for both regulatory authorities as well as industry. Have you ever wondered how it is that accident investigators understand all the shortfalls and exposures – but after an accident or incident? It is possible to audit at this level before an accident.

This course is highly interactive with delegates having the opportunity to fully engage to consider best practice techniques related to both auditing techniques and compliance oversight methodology.

Auditing should not be a tick-the-box exercise to keep the regulatory authority satisfied! Good Auditing is a powerful tool for establishing the effectiveness of an Organization.

Who is the course for?

This course is ideally suited for Quality Managers, Maintenance Managers Quality Auditors, or any other person wanting to learn advanced auditing techniques.

What is the Benefit of this Training – What will I learn?

- a) To consider the Key elements required to drive the Organization’s Quality Control System to ensure compliance and deliver maximum effectiveness.
- b) Obtain a detailed practical understanding of advanced auditing methodology and how you can apply what you learn in the workplace.
- c) An essential benefit of this training is to focus on the issues, how they relate in our workplace, and what we need to do to address them.
- d) How to identify areas that need special attention and how to focus our efforts on making sure our training program produces competent personnel in all relevant areas.
- e) Significantly improve your own competence related to audit delivery.
