

Republic of Indonesia DGCA CASR Part 145 & Part 43 – Recurrent 2 Days

Introduction

Civil Aviation Safety Regulation (CASR) Part 145 Approved Maintenance Organizations sets forth Indonesia DGCA regulations for an organization to obtain a certificate to perform maintenance, preventive maintenance, and alterations for Indonesia-registered aircraft and their component parts.

The work must be performed in accordance with CASR Part 43 which defines the requirements for who can work on the aircraft, and who can sign off the aircraft logbook. It also defines the standards for work, which is performed, and record-keeping requirements.

This 2-day recurrent training course includes the basic elements of CASR Part 145 and relative sections of CASR Part 43 relevant to the maintenance and inspection of large aircraft and repair and overhaul of aircraft components.

Who is the course for?

This course is ideally suited to Key Management Personnel, Management Personnel, Quality Auditors, Maintenance Personnel, Inspection Personnel, and Return to Service Personnel, and anyone with an interest to understand how to achieve compliance with CASR Part 145 and Part 43 and their relationship to Air Carrier/Operator responsibilities.

What is the Benefit of this Training – What will I learn?

- a) Refresh knowledge of the structure, composition, and impact of the Republic of Indonesia DGCA CASR Parts 43 & 145.
- b) Understand organizational roles and responsibilities in compliance with CASR Part 145.
- c) Understand the environment driving the Part 145 process to focus your business decision-making process.
- d) Understanding the concepts of airworthiness, and its importance to ensure the safety of flight.
- e) Confidence in gaining a detailed knowledge of the key components of CASR Part 145.
- f) Have an in-depth understanding of the interface between CASR Parts 145 and 43 roles, responsibilities, and obligations.
- g) Be able to demonstrate CASR Part 145 functionality, and to avoid, or mitigate problems.
- h) A detailed understanding of the CASR Part 145 Quality and Safety System.
- i) Be able to use the regulation to proactively manage full compliance within an Aircraft Maintenance Organization (AMO).

Target Groups

Quality Managers; Quality Engineers; Inspection Personnel; Certifying Personnel; Safety Managers; Maintenance Managers; Maintenance Engineers / Technicians / Mechanics; Technical Services / Engineering Staff; Maintenance Planning Staff; Stores Personnel; Technical Records Staff from the following organizations:

Operators/Air Carriers, Repair Stations/Approved Maintenance Organizations, Staff from National Aviation Authorities and MRO (Maintenance, Repair, and Overhaul) approval holders; Organizations seeking Indonesia DGCA CASR Part 145 approval.

Pre-requisites

This course is intended for delegates who have previous CASR Part 43 and Part 145 experience together with a working level of understanding of the regulations.

Learning Objectives

By the end of this course, delegates will be able to:

- Secure knowledge of the key components of CASR Part 43, and CASR Part 145.
- Provide examples as to the 'know-how' as well as the 'know-what' by looking at a practical perspective of CASR Part 145.
- Understand the Interface between CASR Part 145, and CASR Part 43.
- Provide a regulatory and industry perspective for staff involved in Part 145 maintenance.

What do People Say about Sofema Aviation Services Training?

- "I found satisfying answers to all my questions."*
- "The instructor demonstrated a very deep knowledge of the subject."*
- "The length of the course fits my needs and expectations."*
- "The content was really effective, I gained a lot of new knowledge."*
- "The practical examples were perfectly delivered."*

Duration

2 days – Start at 09.00 and finish at 17.00, with appropriate refreshment breaks.
