

Advanced Quality Auditing & Developing Performance Audits – 1 Day

Introduction

This 1 day course is specifically intended to serve a dual role both as a recurrent course for Quality Audit Professionals and those who are interested in further promotion of Audit Best Practices. It is also as an opportunity to understand the practical considerations associated with Performance Audits, without doubt performance audits can lead to a significant understanding of opportunities to optimize organizational processes.

The course develops an understanding of the difference between Quality and Safety Auditing and the role of Performance Auditing within your organization, understanding how it can be driven in the most effective way. The course objective is to be practical and relevant to each attendee.

Who is the course for?

It is for persons who are involved in delivering or receiving EASA / GCAA compliant Quality Assurance (Compliance Audits) In particular Quality Audit Staff, Nominated Persons, CAMO Quality Auditors, as well as anyone with an interest to achieve an effective understanding of the Compliance Audit Process.

What is the Benefit of this Training – What will I learn?

You will re-enforce a comprehensive understanding of the requirements for both the QA & SMS systems including an understanding of the different types of audit applicable for each area.

The essential benefit from this training is to understand the focus on the issues, how they relate in our workplace, and what we need to do to address them.

You will learn to identify areas which need special attention and how to focus our efforts on making sure our trainings deliver in all relevant areas.
