

## EASA Aviation Quality and Auditing – 2 Days

### Introduction

The Aviation Quality System should be at the heart of the operation, fully functioning within every department and element of the organisation. Organisations which can deliver an effective quality audit system and a process to follow up with all issues in an effective and practical way, grow and flourish.

This is a practical course which delivers a practical understanding of fundamental elements which support the development and implementation of a formal quality assurance function fully compliant with regulatory requirements.

The training focuses on how we should manage our internal audit programme to ensure we provide the Accountable Manager with full status of compliance with regulations and internal company requirements.

The 2-day course offered by Sofema Aviation Services is designed specifically for all aviation professionals who need to perform all compliance audits including internal and external.

### Who is the course for?

The Sofema Aviation Services training course "EASA Aviation Quality and Auditing – 2 Days" is tailored for aviation professionals involved in quality management, auditing, and regulatory compliance within EASA-regulated environments. This includes quality managers, auditors, compliance officers, safety managers, regulatory affairs personnel, and anyone responsible for ensuring quality standards and regulatory adherence.
