

EASA Continuing Airworthiness Instructor - Train the Trainer - Recurrent - 2 Days

Introduction

Within the Aviation Environment, we have a regulatory and organizational obligation to share processes and procedures in the most effective way.

To do this the organization benefits immensely from having its own internal capacity to deliver regulatory and organisational procedures training including for example Human Factors, Company Procedures, Safety and Quality Procedures and Processes.

This course provides an opportunity for a recurrent exchange of experience and views regarding training best practice techniques.

The course is extremely intensive highly practical and promotes best training practices.

The course focuses on a review of both the implementation and management processes involved in Training as well as the need to develop personal training skills.

It is an industry-specific 2-day program specifically designed for those who need to manage or deliver specific training in their organizations.

It is also of benefit for persons who have completed the online Instructor training program with our partner www.sofemaonline.com. The course is highly participative and stimulates involvement and provides for powerful motivation. To introduce the delegate to training skills and to provide the confidence which can be developed to deliver effective Training within your organizations.

Extensive use is made of group exercises, case studies, and feedback.

The delegate will receive pre-course work in support of this training to add value to the practical elements of this training. In addition, the delegate will make several short presentations throughout the training and will develop a typical training program for a related subject.

Who is the course for?

The course is primarily focused on the continuing needs of the Aviation Instructor to be compliant with the obligation to complete Instructional Techniques Training.

The course will also be of interest to persons who are interested in becoming Aviation Instructors or wishing to hone existing skills and have completed the online training program.
