

# EASA Part 147 Practical Instructors, Examiners/Assessors Training – Initial – 2 Days

## Introduction

Being an instructor is a specific job and it does require specific qualifications.

An expert perfectly knowledgeable on a specific subject may in fact be a very poor instructor and not be able to efficiently transfer his/her knowledge to others if he/she was not trained to instructional techniques by specialists. The same principle applies to examiners and assessors. As a consequence, it is strongly recommended that instructors, examiners, and assessors do attend dedicated training on instructional and assessment techniques ("Train-the-trainer" and "Train-the-examiner / assessor").

**Note** - EASA regulations and policies do not provide a specific curriculum for such "train-the-trainer" or "train-the-examiner / assessor" course, and it is up to the Part 147 training organization to evaluate the quality of the training received by its instructors and, if necessary, to complement it through internal coaching, top-up training, etc.

**Note** - Practical assessors should meet the same criteria as the Practical instructor of the concerned elements (i.e. assessor for landing gear tasks meet the criteria of landing gear elements practical instructor).

### Pedagogical Skills Requirements – Typical

Completion of a "Train the assessor" course (required for Initial – note this course is available online with our Partner "Sofema Online" please see the following link:

o <https://sofemaonline.com/lms/all-courses/165-easa-continuing-airworthiness-instructor-train-the-trainer/preview> (This course is equivalent to 4 days in the classroom or webinar delivery)

An assessment performed and documented by the Training Organisation's Examination's Manager (if himself appropriately qualified as a practical assessor and in accordance with an MTOE procedure).

Training to the Organisation's procedures (MTOE) addressing practical assessments:

o <https://sofemaonline.com/lms/all-courses/172-easa-part-145-part-147-supervisor-amp-assessor-training-skills-development/preview> (This course considers the role of the Practical Assessor within an EASA Part 145 / 147 organization).

Training on specific assessment methods or devices used by the training organization (i.e. simulators, synthetic task trainers, etc.)
