

Regulation 1321/2014 Safety Management System Considerations for Quality & Safety Personnel – 1 Day

Introduction

The focus of the course is on the delivery of an optimum Safety Management System within both an EASA Part 145 & Part CAMO System. The course considers the required changes related to the introduction of a management system compliant with the Commission Implementing Regulation (EU) 2021/1963.

The training includes a detailed understanding and review of issues related to the effectiveness including the Primary Challenges Related to the Implementation of SMS. The training will also promote the delegates understanding concerning both airworthiness and maintenance principles, including an update & understanding of the Role of Part 145 Quality & Safety Personnel.

Understanding regulations driving the Part CAMO & 145 Management System process enables you to make the best business decisions and to ensure compliance.

Who is the course for?

The course is aimed at quality and safety personnel, focusing on providing comprehensive knowledge and skills to ensure compliance with safety regulations and effectively manage safety-related aspects within an organization. The one-day course covers essential considerations and best practices for maintaining high standards of quality and safety in various industries.
