

Regulatory Assessment of EASA Management Systems – SMS, CMS, ERP & Crises Management – 3 Days

Introduction

This 3 Day course is focused on best practice techniques that can support the Competent Authority to perform a Regulatory Audit & Assessment of

- a) EASA Compliant Management Systems
- b) EASA Compliant Safety Management Systems
- c) EASA Compliance Management Systems
- d) Emergency Response Planning Oversight Audit
- e) Business Process Recovery & Crises Management Oversight Assessment
- f) Assessment of the Effectiveness of Training Programs and Management Systems

EASA Provides a regulatory environment with Implementing Procedures, Acceptable Means of Compliance, Guidance Material, Certification Specifications, and User Guides.

All audits typically aim to ensure visible compliance is determined with the various objectives called for through the myriad of obligations. To demonstrate compliance with all requirements, organisations create a raft of documents, processes, and procedures.

A degree of objectivity is typically required during assessments of organisational document processes and procedures to enable demonstration of compliance with both external regulations and internal organisational compliance.

This course does not address in detail the underlying regulations but considers the due process to deliver effective audit oversight for each of the key areas and process

Who is the course for?

The course is made for aviation professionals, particularly those involved in safety management, crisis management, and regulatory compliance. It aims to provide comprehensive training on the assessment and implementation of management systems according to the European Union Aviation Safety Agency (EASA) regulations.
