

SMS Introduction for Managers and Post Holders - 1 Day

Introduction

With SMS we have a set of regulations, which allow Industry to establish best-practice that fits different cultures and place the main emphasis and duty on improving safety performance. This requires a real "team effort" as regulators and airlines are all part of one large system. Working as a team it will be possible to improve an already highly impressive safety record and allow organizations to conduct more of their own oversight and assurance. This 1-day training course develops the understanding of the organization's responsibility and how the key managers and executives can play a role in assisting to deliver a strong SMS system.

Who is the course for?

This course provides participants with a comprehensive introduction to Safety Management Systems (SMS), enabling them to understand their roles and responsibilities in promoting safety, managing risks, and ensuring compliance with safety regulations and standards.

What is the Benefit of this Training – What will I learn?

The participants will gain insights into the roles and responsibilities of managers and post-holders in implementing SMS, fostering a positive safety culture, and effectively managing safety risks. By the end of the training, participants will have a solid understanding of how to integrate SMS principles into their organization's operations to enhance safety performance and compliance with aviation safety regulations.
