

SMS Overview and Benchmarking Workshop – 1 Day

Introduction

Periodically we should consider our Safety Management Systems in a more Holistic way to consider whether it is delivering the optimum benefit for our organisation.

This 1-day course aims to provide a comprehensive review of the overall effectiveness of our SMS. Delegates will undertake an overall review of SMS best practices and together with the regulatory-driven obligations will perform a GAP analysis against their own organisation system.

The course is extremely intensive highly practical, and promotes best industry practices. It is an industry-specific one-day program specifically designed for those who need to engage with a full understanding and manage or deliver specific guidance within their own organisations.

The course is highly participative and stimulates involvement and provides powerful motivation.

Extensive use is made of group exercises, workshop activities, case studies, and feedback.

Who is the course for?

The course is designed for professionals and organizations seeking to gain a comprehensive understanding of Safety Management Systems (SMS) and how to benchmark their safety practices against industry standards. It is particularly beneficial for aviation, transportation, and high-risk industries, where safety is of paramount importance and where SMS is widely implemented to manage safety-related risks effectively.

What is the Benefit of this Training – What will I learn?

The participants will learn the core concepts and principles of Safety Management Systems (SMS) and how they can be applied in their specific industries. They will gain insights into the importance of safety culture, risk assessment, and performance monitoring to ensure continuous improvement in safety practices.
