

Train the Trainer Airport Regulatory Requirements, Procedures Quality & Safety Management Systems – 5 Days

Introduction

This 5-Day Training Program focuses on the needs of the Airport Trainer to develop and deliver a range of training courses across the Airport Business Environment.

To identify, encourage and enhance your Classroom Instructional Skills. Learning from professionals how to define a training program and best practice methods for facilitation and presenting. Understand how to perform a Training Needs Analysis and develop material and content. Ensuring the delivery of an active and engaging learning experience for the delegates.

The following Topics underscore the areas of involvement of the trainer with the need to understand the relevance of source material and to be able to provide support and guidance to support a high level of awareness across the business processes.

Relevant Topics include A Global Regulatory overview (ICAO, EASA), Development of aerodrome policy, standards and strategy – The Aerodrome Manual, Aerodrome compliance auditing and inspections, Safety Management Systems and the role of the Accountable Manager. Aerodrome Physical Management, Runway Surface, Lighting,

Wildlife Management, Low Vis Procedures, Emergency Response, Rescue & Firefighting, Mandatory Occurrence Reporting.

The course is extremely intensive highly practical, and promotes best training practices. Extensive use is made of group exercises, case studies and feedback.

The delegate will receive pre-course work in support of this training to add value to the practical elements of this training.

In addition, the delegate will make several short presentations throughout the training and will develop a typical training program for a maintenance-related subject.

Note this is a training to promote training skills whilst it is associated with the “Relevant Topics” The assumption is that the Instructor has pre-existing knowledge regarding the relevant topics.
