

# Recurrent Training Package for EASA Part 147 & Part 145 Instructors – 2 Days

## Introduction

In its commitment to elevating the standards of aviation training, Sofema Aviation Services proudly unveils a bespoke training package exclusively crafted for EASA Part 147 & Part 145 Instructors. Understanding the evolving and specific needs of 145 & 147 Training professionals, SAS has curated a package that amalgamates four distinct courses. Each course has been crafted with precision, ensuring that participants are not only updated with the latest industry standards but also enriched with best practices that can be applied in real-world scenarios.

**Each Delegate Completing this program is awarded 4 separate certificates.**

The training package includes:

**[EASA Part 145 / Part 147 Supervisor & Assessor Training Skills Development – ½ Day](#)**  
**[EASA Part 147 & Part 66 Combined Regulatory Review and Recurrent Training Essentials – 1/2 Day](#)**

**[Human Factors Introduction – ½ Day](#)**

**[Fuel Tank Safety Phase 2 – Recurrent – 1/2 Day](#)**

In total, the package offers a comprehensive 14 hours of tuition, spread over a 2-day period. This is a golden opportunity for 145 and 147 instructors to rejuvenate their knowledge base and undergo recurrent training, ensuring they remain at the forefront of the industry.

Understanding the diverse needs of aviation organizations, Sofema Aviation Services offers this training package in two formats:

- In-Company Classroom Training: Engage in interactive sessions with expert instructors, fostering group discussions and hands-on learning.
- Instructor-Led Webinar: For those who prefer remote learning, the courses are also available as webinars, ensuring the same quality of instruction and engagement.

## Who is the course for?

This course caters to a broad spectrum of aviation professionals, including Training Department Managers, Training staff, newcomers, Post Holders (Training Managers), and Accountable Executives, seeking a comprehensive understanding of EASA Part 147 & Part 66. The knowledge and competence gained will enable you to assist your organization in maintaining compliance, with a focus on optimizing business operations while adhering to EASA Part 147 requirements. It also holds value for all organizational employees, beyond those mandated for EASA-compliant training, and is a recurrent training opportunity for aviation professionals who have previously completed the initial Fuel Tank Safety training, ensuring they stay updated on the latest regulations and best practices.

## What is the Benefit of this Training – What will I learn?

- a) Develop training and supervisory skills, including cultural sensitivity.
- b) Manage trainee reactions, adjusting training as needed.
- c) Understand EASA Part 147/66 Regulation and its structure.
- d) Gain knowledge of Part 66 staff and regulations.
- e) Comprehend organizational roles in EASA Part 147.
- f) Analyze changes in EASA Part 147's impact on your organization.
- g) Implement Part 147 in your organization.
- h) Grasp Aviation Human Factors, consider human performance, and connect to your organization's processes for safety.

## Target Groups

Maintenance Training Managers, Quality Assurance Managers, Accountable Managers, Form 4 Post Holders, and all organization employees, covers the roles of Practical Training Task Supervisors, Practical Assessors, Quality Managers, and personnel responsible for quality monitoring within the maintenance management structure.

## Pre-requisites

A background in an aviation environment.

## Learning Objectives

This comprehensive course equips participants with essential core competencies for the role of a Practical Assessor and emphasizes the importance of coaching skills for task supervisors. It covers the Management Process of EASA Part 147 Training Organizations, including license categories A, B1, B2, B3, and C, the EASA Part 66 License System, and Quality oversight processes. The training also focuses on Training Needs Analysis and a business-oriented approach to EASA 147 Compliance. Participants enhance their subject matter comprehension, develop methods to improve standards and compliance, and become well-versed in fuel tank safety, using clear language and industry-standard terminology.

## What do People Say about Sofema Aviation Services Training?
