

Using The EASA Management System Assessment Tool (EASA MSAT) - 2 Days

Introduction

This dynamic and engaging 2-day course is designed to equip Authority inspectors, regulatory personnel, and organization safety officers with an in-depth understanding of the EASA Management System Assessment Tool (EASA MSAT).

This course is structured to provide practical knowledge, hands-on exercises, and valuable insights into the application of EASA MSAT across various aviation contexts.

By the end of this 2-day course, participants should have a comprehensive understanding of the EASA Management System Assessment Tool, its application in initial certification, continuing oversight, dealing with multiple certificates, and managing integrated management systems. Participants should also be able to apply the tool in practical scenarios and understand how to assess compliance and effectiveness of management systems in different organizational contexts.

This structure aims to provide participants with a comprehensive understanding of safety culture, the Industry Safety Culture Evaluation Tool, and the skills necessary to effectively use the tool in their oversight activities.

Who is the course for?

The course is intended for individuals and professionals working in the aviation industry who need to understand and use the EASA MSAT for safety management system assessments. This course is relevant to aviation safety inspectors, auditors, aviation safety managers, and other personnel responsible for ensuring compliance with safety regulations in the European aviation industry.

What is the Benefit of this Training – What will I learn?

- a) Attendees will gain a deep understanding of the EASA Management System Assessment Tool (MSAT), its applications, and its significance in various aviation contexts.
- b) The course includes numerous practical exercises, allowing participants to apply their knowledge and use the EASA MSAT in real-world scenarios.
- c) Attendees will develop skills necessary for effectively using the EASA MSAT, particularly in oversight activities, which is crucial for Authority inspectors, regulatory personnel, and organization safety officers.
- d) The course provides an in-depth look at safety culture and the Industry Safety Culture Evaluation Tool, enhancing participants' ability to foster a safety-first environment in their organizations.
- e) Participants will learn about the 12 Elements of the ICAO SMS Framework, EASA Management System Requirements, and best practices in managing multiple certificates.

Detailed Content / Topics - The following Subjects will be addressed

Day 1

Introduction and Overview of EASA MSAT

General Introduction

Introduction to Safety Culture

Objectives of the Training, Overview of EASA and its Primary Role

Understanding Integrated Management Systems Challenges and Best Practices in Managing Multiple Certificates

Introduction to EASA Management System Assessment Tool (MSAT) – Issue 2

Understanding the 12 Elements of the ICAO SMS Framework

Key Enablers and EASA Management System Requirements

Scalability and Suitability Considerations

Practical Exercise: Navigating the EASA MSAT Document

Definition and Purpose of Initial Certification

Role of Competent Authority in Initial Certification

The Process of Initial Evaluation using EASA MSAT

Desktop Review and On-Site Evaluation

Detailed Content / Topics - The following Subjects will be addressed

Day 2

Interviewing Key Managers and Staff
Practical Exercise: Mock Initial Certification Evaluation
Group Activity: Analyzing Different Scenarios
Applying EASA MSAT for Initial Certification
Discussion and Feedback on Each Case Study
Key Takeaways and Best Practices
Continuing Oversight, Integrated Management Systems, and Tool Guidance
Assessing "Present", "Suitable", "Operating", and "Effective" Processes
Practical Exercise: Conducting an Oversight Assessment
Understanding the Concept of Credit for Other Oversight Activities
Extending the Oversight Planning Cycle: Criteria and Process
Practical Exercise: Decision Making for Oversight Planning Cycle Extension
Applying EASA MSAT to Integrated Management Systems
Coordination and Agreement among Different Authorities
Practical Exercise: Assessing an Integrated Management System
Detailed Guidance on Using EASA MSAT Tool
Assessing Compliance and Effectiveness
Scalability and Suitability in Different Organizational Contexts

Learning Objectives

- The course specifically addresses how to assess the compliance and effectiveness of management systems in different organizational contexts, improving participants' oversight capabilities.
- Attendees will understand the role of the Competent Authority in initial certification, the process of initial evaluation using EASA MSAT, and how to conduct desktop reviews, on-site evaluations, and interviews with key managers and staff.
- Participants will understand the challenges and best practices in managing multiple certificates, as well as how to apply EASA MSAT to integrated management systems.

Pre-requisites

A foundational knowledge of aviation, relevant work experience in aviation safety or management, and familiarity with aviation regulations

Target Groups

This course is designed for Authority inspectors, regulatory personnel, and organization safety officers.

What do People Say about Sofema Aviation Services Training?

"I found satisfying answers to all my questions."
"The instructor demonstrated very deep knowledge of the subject."
"The length of the course fit my needs and expectations."
"The content was really effective, I gained a lot of new knowledge."
"The practical examples were perfectly delivered."

Duration

2 days – Start at 09.00 and finish at 17.00, with appropriate refreshment breaks.
