

EASA Aviation Compliance Management & Auditing – 1 Day OPS Recurrent

Introduction

This program provides a detailed review of the relationship challenges and common misconceptions between Quality Management Systems (QMS) and Safety Management Systems (SMS). Participants will delve into the intricacies of creating a robust compliance system, ensuring adherence to EASA regulatory requirements for a fully compliant quality system.

From understanding the management system requirements outlined in Part OPS – ORO.GEN.200 to navigating the roles of a Quality Auditor and Compliance Manager, this course equips delegates with essential knowledge for effective aviation management.

Who is the course for?

This course is designed for aviation professionals, focused on Airline Operations Compliance Staff and other stakeholders in an effective EASA compliance system.

What is the Benefit of this Training – What will I learn?

Participants will gain an understanding of the relationship challenges and misconceptions between Quality Management Systems (QMS) and Safety Management Systems (SMS). The course will equip delegates with the knowledge of creating an effective compliance system, meeting EASA regulatory requirements for a compliant quality system, and understanding the management system requirements outlined in Part OPS – ORO.GEN.200. Additionally, participants will learn about the roles of a Quality Auditor and Compliance Manager, along with principles, responsibilities, and relationships associated with management systems. The course will also cover the development of Compliance Management Manuals and Procedures, considerations for auditor competencies, and effective audit communication strategies.
