Sample of EASA Part CAMO - Safety Management Systems - Regulatory Obligations VO

Sample of (EU) Regulation 965/12 Training Essentials with VO

CUSTOMER FEEDBACK

"Easy to manoeuvre and navigate the site with the content list on the side. The reference tab is very useful, the voice over is a good feature, makes you focus and pay attention, also the opportunity to return to where you left, this is great!!"

"The variety of courses provided, extending from individual courses to diplomas certainly is an eye-opener for an individual who is passionate to learn and develop his knowledge and skills. The courses content overall is very informative, and the chronological structure of the courses is commendable."
