

## **EASA Part 147 Regulatory Training - 2 Days**

### **Introduction**

It is important that Post Holders have a solid understanding concerning the responsibilities to comply with all relevant regulations. This course provides delegates with a detailed understanding of Part 147 approved training organizations and an overview of Part 66.

Sofema Aviation Services supports a practical understanding of the interpretation of all regulations to ensure that the Organization is able to comply in the most effective way.

The training will support the development of your MTOE and will appeal to Accountable Managers, and Training Organisation Managers. It also focuses on the specific responsibilities of the Part 147 Form 4 holder.

Through attending this course the delegates will achieve an understanding of the related Quality Management Principles organize and develop an understanding of the need to submit an initial approval for Part 147 organization approval.

In addition, to understand the requirements to construct a Maintenance Training Organisation Exposition (MTOE) together with the best practices for constructing and controlling training courses.

### **Who is the course for?**

The course is for individuals working in aviation maintenance training organizations who are responsible for ensuring compliance with EASA regulations. It is particularly beneficial for quality managers, compliance officers, training managers, and other professionals involved in regulatory compliance and oversight within the aviation maintenance training industry.

### **What is the Benefit of this Training – What will I learn?**

Gaining a comprehensive understanding of EASA regulations specific to aviation maintenance training organizations, ensuring compliance with regulatory requirements, and enhancing safety and quality standards. Additionally, participants can improve their knowledge of regulatory oversight processes, facilitating effective interaction with regulatory authorities and supporting the continuous improvement of training programs.
