

SMS Practical Investigation Skills Essential Training - 1 Day

Introduction

This course focuses on the essential elements required to support the SMS practical investigation role – analyzing – understanding and developing mitigations for the incidents accidents and safety occurrences which are faced on a regular basis within our organisation. Such incidents do not necessarily lead directly to significant negative outcomes, however, may become a precursor or element of a future event. We have an opportunity to subject such safety occurrences to correct and proper investigation and analysis, in this way, they may have a significant and beneficial effect on the organisations ability to improve its safety performance.

Who is the course for?

The course is aimed at professionals, investigators, and individuals seeking to develop practical skills and knowledge in conducting effective investigations. It aims to provide participants with the essential tools and techniques to carry out thorough investigations in a variety of fields.

What is the Benefit of this Training – What will I learn?

The participants will learn the fundamental principles of conducting investigations, including gathering and analyzing evidence, interviewing techniques, and report writing. They will also be trained in identifying and addressing common challenges encountered during investigations and develop a comprehensive understanding of best practices for ensuring fair and unbiased processes. By the end of the course, participants will have acquired the essential skills needed to conduct efficient and effective investigations in their respective fields.
